

STARTUP CONCEPT DOCUMENT

Inventra AI

The AI Operating Copilot for Cambodian SMEs

Helping SMEs make smarter business decisions, not just manage inventory.

THE VISION

Inventra AI is not an inventory system. It is an **AI Operating Copilot**.

Today, many Cambodian SMEs make critical decisions on intuition, fragmented spreadsheets, paper records, and incomplete information.

Inventra AI transforms operational data into **actionable business intelligence** — a virtual business analyst, available 24/7.

INSTEAD OF ASKING

“How much stock do I have?”

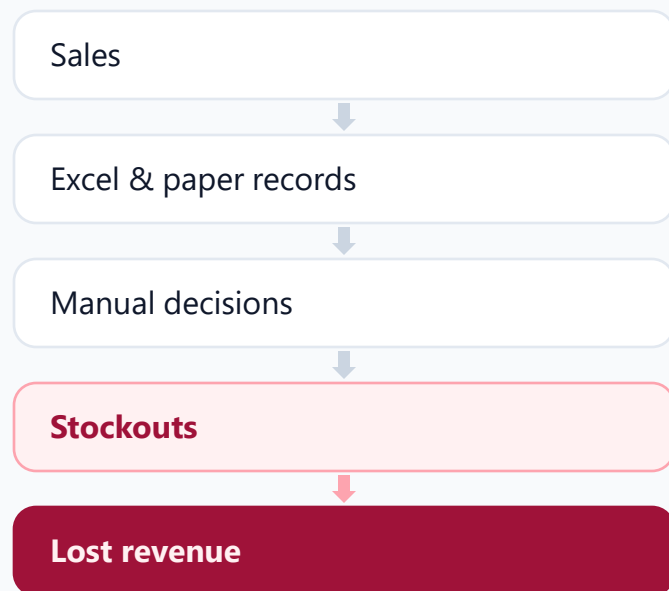

BUSINESS OWNERS CAN ASK

**What should I buy next week?****Which products are hurting cash flow?****Which products will likely sell out soon?****Which items are becoming dead stock?****Where am I losing profit?**

THE PROBLEM

SMEs are drowning in data but starving for insights.

CURRENT SME WORKFLOW

PAIN POINTS

- Inventory decisions are made by **guesswork**.
- Cash is **trapped** in slow-moving products.
- Owners cannot **predict future demand**.
- Business data exists but is rarely turned into insight.
- SMEs lack **affordable BI tools**.

COMPOUNDING INTO

THE PLATFORM

AI-Powered Business Decision Intelligence

AI Demand Forecasting

Predicts future demand from historical sales patterns.

Demand trends **Seasonal patterns** **Growth signals**

Dead Stock Intelligence

Detects products consuming capital without earning revenue.

Slow movers **Overstock risk** **Locked capital**

AI Cash Flow Optimizer

Recommends what to buy against an available budget.

Budget-aware buys **Turnover priority**

Business Health Monitor

Continuously analyzes overall business performance.

Revenue trends **Category performance** **Operational risk**

✓ AI Copilot Chat

Live

I have a \$500 budget this week. What should I reorder?

Prioritise these — highest turnover per dollar:

Coca-Cola	\$180
Instant Noodles	\$210
Bottled Water	\$110

Skip: dried snacks — 40 days of cover already in stock.

What is my biggest inventory risk?

Ask about demand, cash flow, profit...

WHY INVENTRA AI IS DIFFERENT

From record-keeping to decision-making

TRADITIONAL INVENTORY SOFTWARE

Tells you what happened

- ⊖ Records stock levels
- ⊖ Generates static reports
- ⊖ Sends threshold alerts
- ⊖ Leaves analysis to the owner

VS

INVENTRA AI

Tells you what to do next

- ✓ Predicts demand
- ✓ Detects risks early
- ✓ Delivers business intelligence
- ✓ Optimizes purchases
- ✓ Explains decisions
- ✓ Conversational AI assistant

Traditional systems tell you what happened.

Inventra AI tells you what to do next.

AI ARCHITECTURE

How the AI brain works

DATA INPUTS

Sales data

Inventory data

Business rules

Market signals

AI Intelligence Layer

Cleans, correlates and reasons over every signal in real time

SPECIALISED ENGINES

Forecasting Engine

Risk Detection Engine

Cash Flow Optimizer

Insight Generator

Recommendations & Actions

delivered in the dashboard & copilot chat

TARGET MARKET

Enterprise decision intelligence at SME pricing

PRIMARY CUSTOMERS

-  Mini marts
-  Convenience stores
-  Small distributors
-  Retail SMEs
-  Growing family businesses

MARKET POSITIONING

THE PROBLEM

Most SMEs cannot afford enterprise systems like SAP, Oracle, or Microsoft Dynamics.

THE OPPORTUNITY

Deliver enterprise-level decision intelligence at a price SMEs can actually pay.

MVP FOR THE AIM COMPETITION

Build Week MVP

SHIPPING IN BUILD WEEK

- ✓ Inventory Dashboard
- ✓ AI Demand Forecast
- ✓ AI Reorder Intelligence
- ✓ Dead Stock Detection
- ✓ AI Business Copilot Chat

LIVE DEMO SCENARIO

1 Owner uploads sales records

2 AI analyzes the data

3 AI detects

Upcoming stock shortages

Dead stock

Cash flow risks

4 AI delivers actionable recommendations

FUTURE VISION

The AI Operating System for SMEs

Supplier intelligence

Compare suppliers on price, reliability and lead time.

Smart purchasing

Auto-generated purchase orders tuned to demand.

Dynamic pricing

Price recommendations that protect margin and turnover.

Financial forecasting

Project revenue, cash and working capital forward.

Performance benchmarking

See how the business compares to similar SMEs.

Khmer-language AI advisor

Advice in the language every owner already speaks.

Every Cambodian SME deserves access to an **AI business analyst.**
